## **DETAILED ACTION**

### ***Status of the Claims and Examination***

Claims 65-76 are pending and the subject of this Office Action. Applicants cancelled claim 54-64 in its response on 10 August 2007.

Applicant's arguments and amendments filed on 10 August 2007 in response to the non-final rejection filed by this Office on 12 April 2007 have been fully considered, but they are not deemed to be persuasive. Rejections and objections not reiterated from previous office actions are hereby withdrawn. The following rejections are reiterated and expounded upon, and they constitute the complete set presently being applied to the instant application, hereby making this rejection FINAL.

### ***Claim Rejections - 35 U.S.C. §112.1***

The following is a quotation of the first paragraph of 35 U.S.C. §112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 65-76 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant, in its Remarks filed on 10 August 2007, filed new claims 65-76 to replace cancelled claims 54-61 and 63, with a revision of previous independent claim 54 (which is current claim 65) to read "wherein the test device is different from the skin cosmetic or skin care product." This changes the scope of the claim and originally filed and a review of specification, as filed, does not disclose the invention embodied by the present set of claims. And if the same is supported, Applicant has failed to draw attention to the page and line numbers in the specification that support its amendment.

This is a new matter rejection.

### ***Conclusion***

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
